(2) LEARNING OUTCOMES

Learning Outcomes

The course learning outcomes, specific knowledge, skills and competences of an appropriate (certain) level, which students will acquire upon successful completion of the course, are described in detail.

It is necessary to consult:

APPENDIX A

- Description of the level of learning outcomes for each level of study, in accordance with the European Higher Education Qualifications' Framework.
- Descriptive indicators for Levels 6, 7 & 8 of the European Qualifications Framework for Lifelong Learning and

APPENDIX B

• *Guidelines for writing Learning Outcomes*

The module presents the fundamental concepts of Entrepreneurship and how it is shaped in the modern competitive environment in both the public and the private sector. The main feature of the module is the encapsulation of topics ranging from scientific considerations, concepts, analytical methods and real case studies.

General Competences

Taking into consideration the general competences that students/graduates must acquire (as those are described in the Diploma Supplement and are mentioned below), at which of the following does the course attendance aim?

<i>Search for, analysis and synthesis of data and information by the use of appropriate technologies,</i>	<i>Project planning and management</i>
<i>Adapting to new situations</i>	<i>Respect for diversity and multiculturalism</i>
<i>Decision-making</i>	<i>Environmental awareness</i>
<i>Individual/Independent work</i>	<i>Social, professional and ethical responsibility and sensitivity to gender issues</i>
<i>Group/Team work</i>	<i>Critical thinking</i>
<i>Working in an international environment</i>	<i>Development of free, creative and inductive thinking</i>
<i>Working in an interdisciplinary environment</i>	<i>.....</i>
<i>Introduction of innovative research</i>	<i>(Other.....citizenship, spiritual freedom, social awareness, altruism etc.)</i>
	<i>.....</i>

By the end of the course, students should be able to:

- Analyze and fully understanding the different approaches that have developed and compose the concept of Entrepreneurship.
- Understanding Business decision-making under different market conditions.
- Develop business capabilities and critical thinking.
- Understand the historical development of business activity and to perceive the various dimensions of individual and corporate business mentality.
- Describe social and sustainable Entrepreneurship and assess their role in the context of international markets.
- Understand the impact of innovation and creative thinking in identifying business opportunities
- Understand the basic tools for evaluating start-ups and understand the role of the various alternative methods available to them in order to create a new business versus acquiring an established one or franchising.
- Assess, against the risk, the available sources of financing at all stages of the business life cycle.
- Understand the key dimensions that influence the preparation and presentation of an effective business plan and to analyze the strategic planning and development of businesses.
- Assess the importance and various dimensions of business activity, with a focus on the present and the future.
- Organize and present the findings of their business plan, through participation and collaboration with fellow students in small groups
