Professional Summary

I am a graduate of the University of Piraeus (Bachelor of Science in Maritime Studies, 2013) and currently serve as APAC Procurement Manager in Singapore, as well as Director in a logistics company with specialisation in shipping industry. With over 10 years of experience in the maritime sector, I have consistently taken on leadership roles, driving strategic growth, operational efficiency, and cross-functional collaboration in fast-paced international environments.

Throughout my career, I have successfully built and led multicultural teams across departments including operations, warehousing, and customer service—fostering a culture of accountability, continuous improvement, and high performance. I have overseen the setup of logistics hubs, implemented ERP/WMS systems, and negotiated strategic vendor partnerships that strengthened supply chain resilience and reduced operational costs.

Having worked closely with stakeholders across Europe and Asia, I bring a global perspective and a hands-on leadership style that empowers teams and delivers results. I'm proud to now contribute back to the academic community as a mentor, helping students navigate the transition from university to professional life with confidence and clarity.
